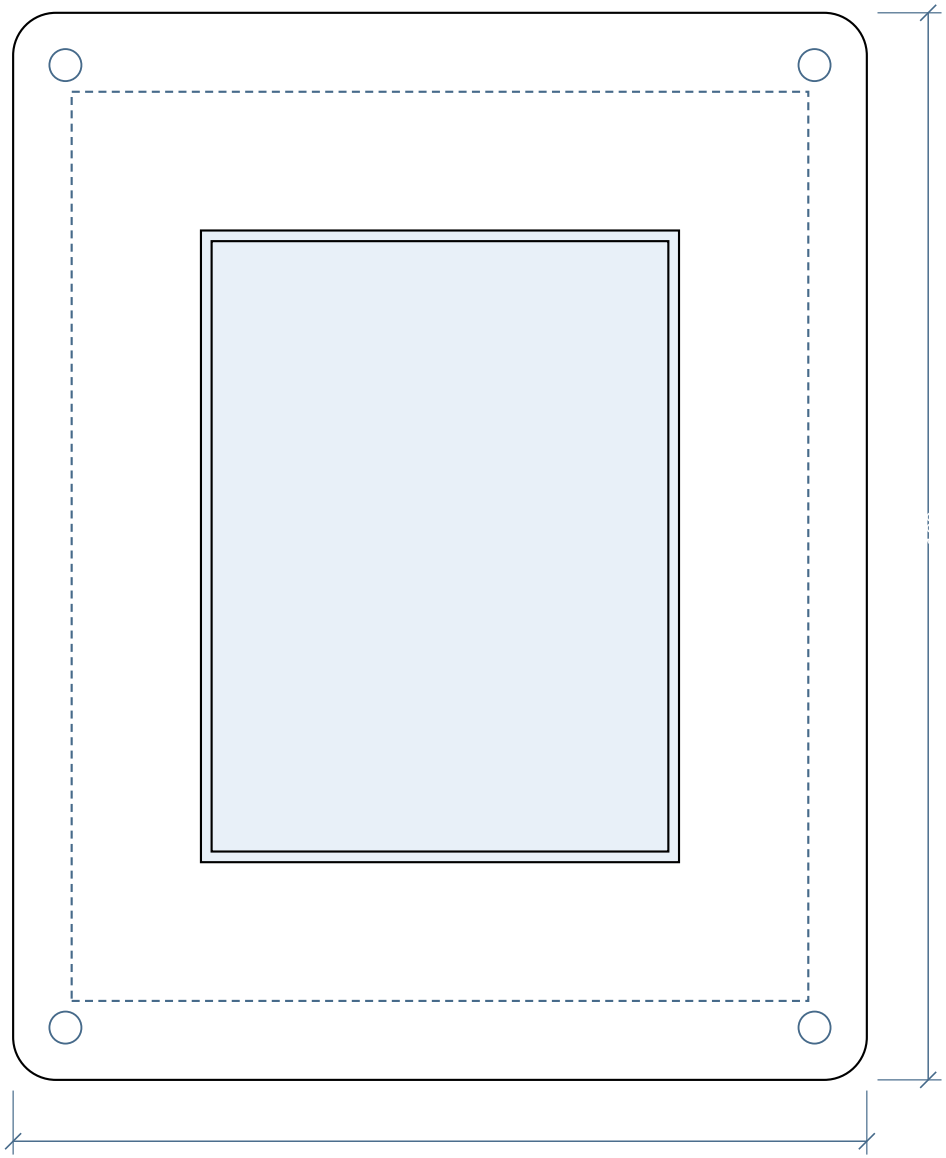
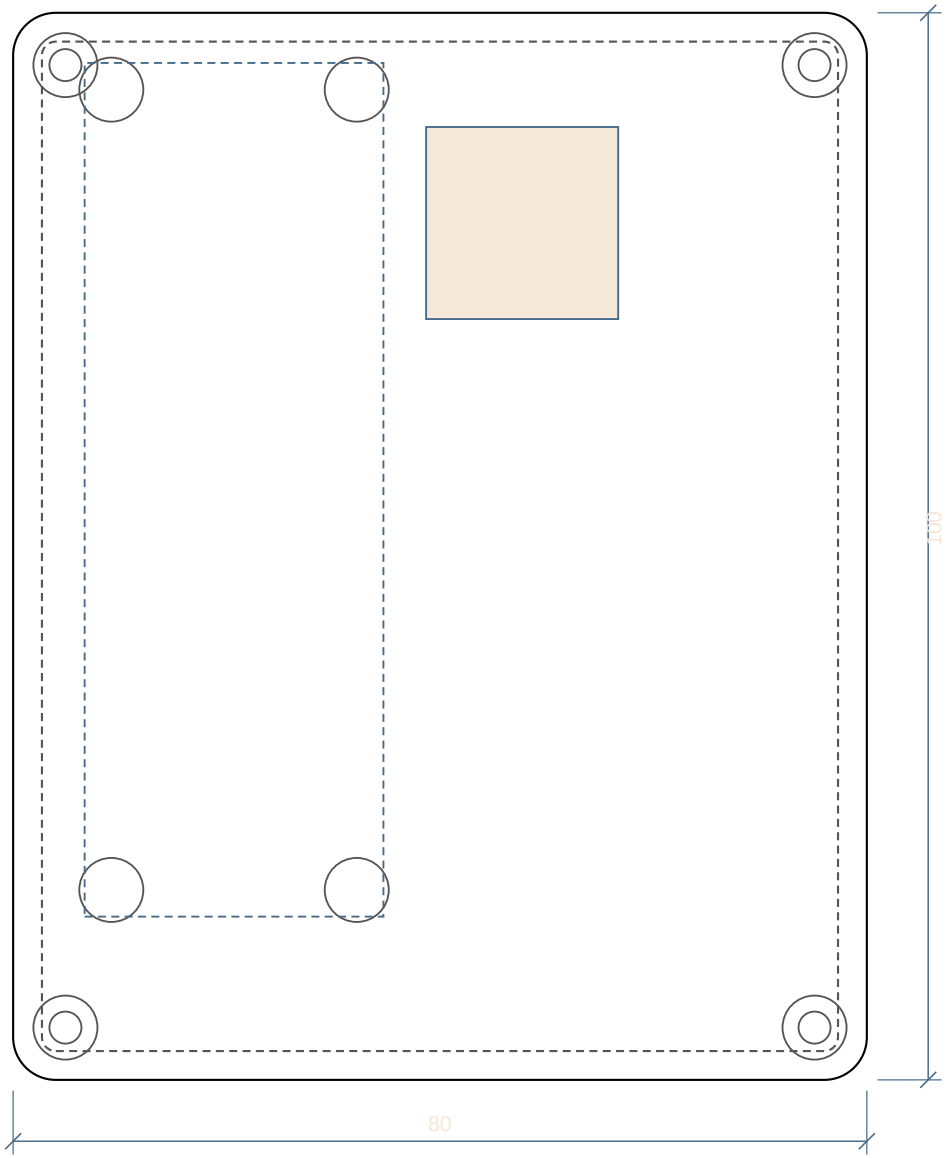
ESP32-POE + Newhaven NHD-2.8 enclosure

TOP COVER — exterior/front view and internal PCB clearance | scale 1:18 (schematic)



Bottom plate and assembled height

BOTTOM PLATE — interior view, board standoffs, cable knockout, and side section | scale 1:18 (schematic)



BOTTOM PLATE

Outer: 80 x 100 x 2.5

Perimeter lip: 2 high

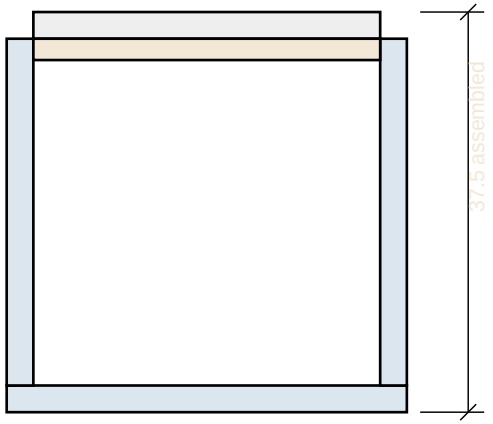
Lip footprint: 74.6 x 94.6

ESP32-POE board:
28 x 80 (dashed)

Standoff pattern: 23 x 75
4 posts, Ø6 x 4 high

Cable knockout: 18 x 18
origin (38.7, 71.3)

Base screw counterbores:
4 x Ø6 x 2 deep; through Ø3



Cover height = 35; bottom plate thickness = 2.5.
SCAD therefore yields approx. 37.5 overall, not 35.
Lip is 2.0 high and fits inside the cover walls.

Coordinates above are measured from the lower-left outside corner in the plan views.
The top cover and base are shown separately; dimensions follow the supplied parameter values.
